

JOB DESCRIPTION

Firefighter

Date Prepared: March 2014

Class Code: 5060

SUMMARY: Under basic supervision, performs firefighting, rescue, and emergency medical duties as required to protect the lives and property of the City residents and businesses; responds to calls for service, and maintains Vernon Fire Department (VFD) equipment and facilities.

ESSENTIAL FUNCTIONS: -- *Essential functions, as defined under the Americans with Disabilities Act, may include any of the following representative duties, knowledge, and skills. This is not a comprehensive listing of all functions and duties performed by incumbents of this class; employees may be assigned duties which are not listed below; reasonable accommodations will be made as required. The job description does not constitute an employment agreement and is subject to change at any time by the employer. Essential duties and responsibilities may include, but are not limited to, the following:*

- Inspects and maintains personal protective equipment, and assures that all emergency response equipment is in a state of readiness and available for immediate use; duties may vary according to job assignment.
- Responds to emergency alarms and calls for service; mitigates hazards, and performs fire suppression, rescue, and emergency medical duties as required to control emergency incidents; follows orders under stressful conditions, and relays orders, instructions, and information on team actions.
- Operates emergency, fire, rescue, medical, and lifesaving tools and equipment; assists and coordinates with law enforcement personnel and other emergency responders; extracts victims from accident sites and hazardous situations; enters burning buildings to extinguish fires and rescue victims.
- Preserves property and mitigates hazards, emergency situations, and hazardous materials incidents; performs salvage and clean-up activities at fire and emergency scenes.
- Inspects and maintains VFD facilities, vehicles, equipment, apparatus, tools, medical inventory, hydrants, and infrastructure; inspects, tests, evaluates, and repairs equipment after use; performs minor repairs on apparatus, equipment and facilities; notifies supervisors of maintenance problems beyond the scope of authority or skills; orders replacement supplies as needed.
- Studies City geography, traffic patterns, streets, landmarks, building locations, and special hazards of designated facilities, in order to perform duties in a fast and effective manner.
- Prepares and maintains departmental records and reports; assists with inspection of buildings, developing fire pre-plans, and verifying compliance with fire prevention ordinances.
- Conducts public education sessions for a wide variety of audiences; participates in fire prevention, pre-fire planning and safety programs; assists with training of citizens and volunteer staff as assigned.
- Attends training programs to continuously update work skills and knowledge.
- Supports the relationship between the City of Vernon and the general public by demonstrating courteous and cooperative behavior when interacting with visitors and City staff; maintains confidentiality of work-related issues and City information; performs other duties as required or assigned.

MINIMUM QUALIFICATIONS:

Education, Training and Experience Guidelines:

Minimum 18 years of age; High School Diploma or GED equivalent. Must possess a Certificate of Completion from a Valid California Accredited Fire Academy or California State Fire Marshal Firefighter I Certificate; Must be a National Registered Emergency Medical Technician; Must possess a valid within one year physical ability test (Candidate Physical Ability Test CPAT) or PAT (Physical Ability Test formerly known as Biddle)

Knowledge of:

- City and VFD policies and procedures.
- State and federal regulations, practices, and procedures governing fire safety and emergency services.
- Methods, practices and procedures for fire prevention, fire suppression, hazardous material responses, emergency medical services, rescue operations, and fire investigations.
- Procedures and equipment used in modern firefighting and emergency medical response.
- Operational characteristics of fire suppression apparatus and equipment.
- City geography, traffic patterns, and the location of all streets, landmarks and buildings.
